DETAILED ACTION

In view of Decision on Appeal submitted by BPAI on 19 June 2008, the claimed subject matters are further distinctly pointed out as patentable features to place the application in the condition for allowance.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Robert Popa (Reg. No. 43,010) on 24 June 2008.

This application has been amended as follows:

IN THE CLAIMS

Cancel claim 1 – 6 and 24 – 41.

Allowable Subject Matter

Claims 7 – 23 and 42 – 61 are allowed.

The following is an examiner's statement of reasons for allowance:

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations recited in claims 7 and 42 (& associated dependent claims).

The present invention is directed to a method for determining the trust level of a computer entity by establishing communications with a computer entity including requesting a trusted device associated with a computer entity to provide an integrity metric calculated for the entity by the trusted device and receiving a response from the trusted device including an integrity metric calculated for the entity by the trusted device and the steps of selecting a level of trust for the entity from a plurality of predefined levels of trusts based on at least one value in the integrity metric calculated for the entity by the trusted device. The closest prior arts on the record, either singularly or in combination with effective filing date earlier than 18 August 2000, fails to anticipate or render obvious the claimed invention that a trusted party other than the trusted device (i.e. considering a trusted device as presented in the instant disclosure) provides authenticated values for the computer entity so that the authenticated values can be compared with the integrity metric calculated by the existing trusted device for the computer entity according to the board decision submitted by BPAI.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Longbit Chai whose telephone number is 571-272-3788. The examiner can normally be reached on Monday-Friday 8:00am-4:00pm.
